Angelly de Jesús Pugliese Viloria

👤 Profile

I am a Geoinformatics Engineering student at Politecnico di Milano, interested in geospatial data analysis and geographic information systems. I am a very proactive and self-learning person.

🎓 Education

M. Sc. in Geoinformatics Engineering, Politecnico di Milano, Italy
September 2019 — Present

Double degree student due to partnership between both universities.

Systems Engineering and Computing , Universidad del Norte, Barranquilla, Colombia
February 2015 — March 2020

Orgullo Caribe scholarship.

Italian Seedbed, Universidad del Norte, Barranquilla, Colombia
April 2018 — June 2019

Scholarship to study Italian for a year, I obtained a CELI B2 certificate.

💼 Employment History

GIS Analyst Intern at World Bank Group, Washington, D. C.
July 2019 — September 2019

Internship for Young Women in Technology, being the 1st representative of my country in the 3rd year of the program. I worked at the GeoLab developing geospatial solutions for the ITS department.

Assistant professor at Universidad del Norte, Barranquilla, Colombia
August 2017 — May 2019

In subjects as discrete mathematics, computational solutions for engineering problems and fundamentals of algorithms.

📊 Technical skills

- QGIS, ArcGIS.
- Matlab, Python, Angular, Wordpress.

📊 Research and projects

Comparison of Spatial Clustering Techniques for Location Privacy
January 2020

2019 IEEE Latin American Conference

DOI: 10.1109/LATINCOM48065.2019.8938006

Geoprivacy plugin for QGIS
May 2019

QGIS repository and plugin documentation.
